

TOTOK SULISTYANTO

Director of Institutional Relations

With **35 years of experience in energy research and conservation**, **Totok Sulistiyanto** has played a key role in advancing energy efficiency in buildings and industries across Indonesia and ASEAN. Holding a **master's degree in engineering science from Melbourne University,** he has **led PT. Narama Mandiri as Director since 2010** and has spent over **two decades running a mechanical, electrical, and energy consulting firm.**

His expertise spans a wide range of green building and energy efficiency initiatives, including energy audits, building energy standards, and efficiency design codes. He has l**ed policy development, research, and demonstration projects in collaboration with international organizations** such as **FCDO UK-PACT, UNDP, C40 Cities, Danish Energy Agency, South Pole Carbon, GFA Consulting, GBPN, and USAID.** His work has contributed to shaping Indonesia's energy efficiency framework, influencing both national policies and industry practices.
