

# DEPUTY DIRECTOR OF MARKETING

## ILHAM WAHYUDI

For nearly two decades, Ilham Wahyudi has been at the forefront of sustainable building management and energy efficiency in Indonesia. With a background in mechanical engineering from Politeknik Negeri Bandung (POLBAN) and Institut Sains & Teknologi Nasional (ISTN), he has built a career shaping greener, more efficient buildings.

Ilham has led sustainability projects at major companies like Sinar Mas Land and PT Gedung Bank Exim (GBE), taking on roles from engineering leadership to sustainability program development. His expertise in energy management and green building has earned him certifications as a GREENSHIP Professional, Energy Manager, Trainer for Energy Managers, and Senior Expert in Building Maintenance.

His work has made a real impact. Under his leadership, several buildings have won prestigious energy efficiency awards, including the National Energy Efficiency Award (PEEN) and ASEAN Energy Awards (AEA) in categories like Green Building, New Building, Tropical Building, Retrofitted Building, and Energy Management. Beyond buildings, Ilham has contributed to shaping national policies, helping draft Indonesia's National Work Competency Standards (SKKNI) for Energy Performance Measurement and Verification (KepMenNaker RI No. 223/2020). He has also played a key role in developing corporate sustainability reports and achieving green building certifications.
